**Part III DETAILED ACTION**

1. Claims 1,3-9,11-16,18 and 19 are pending in this application. Claims 3-5,11-14,18 and 19 are being allowed over prior art of record. An attempt was made on 1/31/08 to contact Mr Frank Cire (42419) to request the cancellation of non-elected claims, and to correct the dependency of claim 6, in order to advance prosecution. Prosecution on the merits is closed in this application. The cancellation of non-elected claims is required.

2. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Claim 6 depends on claim 2, which has been cancelled, claim 6 appears that it should depend on claim 5. Correction is required.

***Conclusion***

3. The following is an examiner's statement of reasons for allowance:

The prior art of record teaches different ways of printing data using control commands, but the prior art of record fails to teach, or suggest the claimed limitations of (in combination with all other features in the claims), apparatus , method or computer program using the reception, switching means as described in the amended claims.a
